1.0 PURPOSE:

The purpose of this RFP is to provide information to responsible bidders (referred throughout this RFP as "Offeror(s)" and/or "Contractor(s)") in order to solicit competitive proposals ("Proposals"), for a primary supplier to provide medical and pharmaceutical supplies to Eastern Virginia Medical as needed.

2.0 BACKGROUND

Eastern Virginia Medical School (EVMS) was born of necessity in 1973, the result of a community-led effort to improve health care in a region then plagued with a severe shortage of physicians. Patients often had to leave the area in search of specialized care. Today, the region enjoys modern medical facilities and a full-range of medical specialties. As community leaders foresaw, EVMS was a catalyst for change, playing a key role in the region's medical renaissance through its commitment to education, research and patient care.

Education

EVMS offers a variety of graduate and doctoral degrees in the medical and health professions. Interest in all programs continues to grow. In the most recent year, EVMS received nearly 8,000 applications for 450 openings. The school now has 6,800 graduates who practice throughout Hampton Roads, across Virginia and around the globe. EVMS also provides specialty training for some 300 medical residents annually and offers Continuing Medical Education to thousands of health-care professionals practicing in the region.

Research

EVMS is the largest biomedical research institution in southeastern Virginia. More than 100 EVMS faculty members are engaged in basic and clinical research focused in areas where the community has pressing needs. Innovative research has brought EVMS to the forefront of groundbreaking discoveries — from the pioneering of in vitro fertilization in America, to the recognition of new cancer detection and treatment methods and innovative therapies for individuals suffering from the debilitating side effects of diabetes. We continually strive to enhance our research enterprise in order to improve the health of the people of Hampton Roads and beyond.

Patient Care

What once was one of the nation's most medically underserved communities is today a destination for people from around the country seeking the best available care. For the 1,500 people each day who receive high-quality, patient-centered care at more than 20 convenient EVMS Medical Group locations across the region, it equates to the best possible care, delivered with a healthy dose of compassion.

- b. Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
- c. All goods and services provided under this contract/purchase order, shall be billed by the contractor at the contract price, regardless of which department is being billed.
- d. The date of postmark shall be deemed to be the date of payment in all cases where payment is made by mail.
- e. Unreasonable Charges. Under certain emergency procurements and for most time and materials purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Medical School shall promptly notify the contractor, in writing, as to those charges which it

considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within sixty (60) days of notification.

2. To Subcontractors:

- a. A contractor awarded a contract under this solicitation is hereby obligated:
 - i. To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Medical School for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
 - ii. To notify the Medical School and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason.
- b. The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Medical School, except for amounts withheld as stated in (ii) above. The date of mailing of any payment by U.S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Medical School.
- J. Precedence of Terms: The following General Terms and Conditions APPLICABLE LAWS AND COURTS, ANTI-DISCRIMINATION, ETHICS IN CONTRACTING IMMIGRATION REFORM AND CONTROL ACT OF 1986, DEBARMENT STATUS, ANTITRUST, MANDATORY USE OF TERMS AND CONDITIONS, CLARIFICATION OF TERMS, PAYMENT shall apply in all instance. The Medical School reserves the right to inspect offeror's physical facilities prior to award to satisfy questions regarding the offeror's capabilities. The Medical School further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy the Medical School that such offeror is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

- L. <u>Testing and Inspection</u>: The Medical School reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications.
- M. <u>Assignment of Contract</u>: A contract shall not be assignable by the contractor in whole or in part without the written consent of the Medical School.
- N. <u>Changes to the Contract</u>: Changes can be made to the contract in any of the following ways followed by a change order/revised purchase order:
 - 1. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
 - 2. The Purchasing Department may order changes within the general scope of the contract at any time by written notice to the contractor. Changes within the scope of the contract include, but are not limited to, things such as services to be performed, the method of packing or shipment, and the place of delivery or installation. The contractor shall comply with the notice upon receipt. The contractor shall be compensated for any additional costs incurred as the result of such order and shall give the Purchasing Department a credit for any savings. Said compensation shall be determined by one of the following methods:
 - a. By mutual agreement between the parties in writing; or
 - b. By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed subject to the Purchasing Department's right to audit the contractor's records and/or to determine the correct number of units independently; or
 - c. By ordering the contractor to proceed with the work and keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The contractor shall present the Purchasing Department with all vouchers and records of expenses incurred and savings realized. The Purchasing Department shall have the right to audit the records of the contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to the Purchasing

Department within thirty (30) days from the date of receipt of the written order from the Purchasing Department.

- O. <u>Disputes:</u> Neither the existence of a claim nor a dispute resolution process, litigation or any other provision of this contract shall excuse the contractor from promptly complying with the performance of the contract generally or with the changes ordered by the Purchasing Department.
- P. <u>Default</u>: In case of failure to deliver goods or services in accordance with the contract terms and conditions, the Medical School, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in additional to any other remedies which the Medical School may have.
- Q. <u>Taxes</u>: Sales to the Medical School are normally exempt from State sales tax including prepared meals, catering and all serving charges, food, audio/visual services in connection with catering. State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall be free of excise or transportation taxes.
- R. <u>Use of Brand Names</u>: Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict offerors to a specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the Medical School, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The Offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts, and technical detail to enable the Medical School to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. Unless the offeror clearly indicates in its proposal that the product offered is an equal product, such proposal will be considered to offer the brand name product referenced in the solicitation.
 - S. <u>Transportation and Packaging</u>: By submitting their proposals, all offerors certify and warrant that the price offered for FOB destination includes only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped.
