EMVS Waitzer Hall AV System Addendum #4

See below for Addendum #4 changes and notices to the Advantiv equipment list:

1. Errors in the discount price calculation for the Addendum 3 pricing workbook were reported. The error was traced to improper formatting of the Discount cell in certain rows, causing the numbers entered to be treated as whole numbers, and not percentages, as intended.
2. The error has been corrected, and the pricing workbook has been replaced.
3. If you have completed all or portions of the Addendum 3 pricing workbook, you can download the new, corrected version and copy then paste your entries into this new version. You will then need to scan the Discount column to ensure that all percentages are as you intended them to be.
