1.0 PURPOSE:

The purpose of this RFP is to provide information to responsible bidders (referred throughout this RFP as “Offeror(s)” and/or “Contractor(s).”) in order to solicit competitive proposals (“Proposals”), in accordance with the policies of Eastern Virginia Medical School, for the purchase and installation of a digital security camera/video system and an emergency communication system, for the new Education and Academic Administration Building – Waitzer Hall.

2.0 BACKGROUND

Eastern Virginia Medical School (EVMS) was born of necessity in 1973, the result of a community-led effort to improve health care in a region then plagued with a severe shortage of physicians. Patients often had to leave the area in search of specialized care. Today, the region enjoys modern medical facilities and a full-range of medical specialties. As community leaders foresaw, EVMS was a catalyst for change, playing a key role in the region’s medical renaissance through its commitment to education, research and patient care.

Education

EVMS offers a variety of graduate and doctoral degrees in the medical and health professions. Interest in all programs continues to grow. In the most recent year, EVMS received nearly 8,000 applications for 450 openings. The school now has 6,800 graduates who practice throughout Hampton Roads, across Virginia and around the globe. EVMS also provides specialty training for some 300 medical residents annually and offers Continuing Medical Education to thousands of health-care professionals practicing in the region.

Research

EVMS is the largest biomedical research institution in southeastern Virginia. More than 100 EVMS faculty members are engaged in basic and clinical research focused in areas where the community has pressing needs. Innovative research has brought EVMS to the forefront of groundbreaking discoveries — from the pioneering of in vitro fertilization in America, to the recognition of new cancer detection and treatment methods and innovative therapies for individuals suffering from the debilitating side effects of diabetes. We continually strive to enhance our research enterprise in order to improve the health of the people of Hampton Roads and beyond.

Patient Care

What once was one of the nation’s most medically underserved communities is today a destination for people from around the country seeking the best available care. For the 1,500 people each day who receive high-quality, patient-centered care at more than 20 convenient EVMS Medical Group locations across the region, it equates to the best possible care, delivered with a healthy dose of compassion.

C. Proposal Preparation:

1. Proposals shall be signed by an authorized representative of the Offeror (Section 11 Attachment B). All information requested should be submitted to ensure consideration as a responsive bidder. Failure to submit all information requested may result in the following:

- a. EVMS may reject the Proposal as unresponsive. Proposals, which are substantially incomplete or lack key information, may be rejected by EVMS; or,
- b. EVMS may lower the overall evaluation score due to missing information; or,
- c. EVMS may require prompt submission of missing information within a prescribed time period and/or the Offeror shall receive a lower overall evaluation score due to missing information lowered evaluation of the

Proposal. If after being given an opportunity to submit missing information, the Offeror does not provide all of the requested information then subsections 7.0 C (1)(a) and (b) above apply.

2. All information above must be submitted along with the RFP cover sheet (Section 13, Attachment A) and an Entity Data Sheet (Section 13, Attachment C). Failure to submit all information requested may result in EVMS requiring prompt submission of missing information and/or giving a lowered evaluation of the Proposal. EVMS may reject Proposals, which are substantially incomplete or lack key information.

4. As used in this RFP, the terms “must”, “shall”, “should” and “may” identify the critical requirements. “Must” and “shall” identify requirements where absence will have a major negative impact on the suitability of the Project and/or mandatory requirements, which are required by law or regulation and as such they cannot be waived and are not subject to negotiation. This includes any applicable prime award funding flow-down provisions, which are mandatory and/or required as applicable. Any federal standard provisions are an example of mandatory terms and conditions that are not subject to negotiation. Items labeled as “should” or “may” are highly desirable, although their absence will not have a large impact on the Project and would be useful, but are not absolutely necessary or required. The inability of an Offeror to satisfy a “must” or “shall” requirement does not

automatically remove that Offeror from consideration; however, it may seriously affect the overall rating of the Offerors' Proposal.

5. Each copy of the submitted Proposal contained in a single volume where practical (i.e., binder, stapled, or otherwise secured so that the pages will not easily separate or come loose). All documentation submitted with the Proposal should be contained in that single volume.
6. All expenses involved with the preparation and submission of Proposals to EVMS, or any work performed in connection therewith, shall be borne by the Offeror. No payment(s) will be made for any responses received; or, for any other effort required of or made by the Offeror(s) prior to commencement of work as defined by a fully executed contract.
7. Ownership of all data, materials, and documentation originated and prepared for EVMS pursuant to the RFP shall belong exclusively to EVMS and may be subject to public inspection in accordance with the Virginia Freedom of Information Act (FOIA) unless a confidentiality or non-disclosure agreement is signed by the parties.

D. Oral Presentation and equipment demonstration:

Offerors who submit a Proposal in response to this RFP will be invited or required to give an oral presentation of such Proposal and present a demonstration of the proposed equipment to EVMS. This provides an opportunity for the Offeror to clarify or elaborate on the Proposal. This is a fact finding and explanation session only and does not include negotiation. If such oral presentations are deemed appropriate at the sole discretion of EVMS, EVMS will schedule the time and location for such presentations. Oral presentations, including telephone, video/internet conferencing are available at the sole discretion of EVMS and may or may not be conducted.

In every contract, the provisions in 1. and 2. below apply:

1. During the performance of this contract, the contractor agrees as follows:
 - a. The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
 - b. The contractor, in all solicitations or advertisements for employees placed by or on behalf of the contractor, will state that such contractor is an equal opportunity employer.

- N. Changes to the Contract: Changes can be made to the contract in any of the following ways followed by a change order/revised purchase order:
1. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
 2. The Purchasing Department may order changes within the general scope of the contract at any time by written notice to the contractor. Changes within the scope of the contract include, but are not limited to, things such as services to be performed, the method of packing or shipment, and the place of delivery or installation. The contractor shall comply with the notice upon receipt. The contractor shall be compensated for any additional costs incurred as the result of such order and shall give the Purchasing Department a credit for any savings. Said compensation shall be determined by one of the following methods:
 - a. By mutual agreement between the parties in writing; or
 - b. By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed subject to the Purchasing Department's right to audit the contractor's records and/or to determine the correct number of units independently; or
 - c. By ordering the contractor to proceed with the work and keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The contractor shall present the Purchasing Department with all vouchers and records of expenses incurred and savings realized. The Purchasing Department shall have the right to audit the records of the contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to the Purchasing Department within thirty (30) days from the date of receipt of the written order from the Purchasing Department.

- O. Disputes: Neither the existence of a claim nor a dispute resolution process, litigation or any other provision of this contract shall excuse the contractor from promptly complying with the performance of the contract generally or with the changes ordered by the Purchasing Department.
- P. Default: In case of failure to deliver goods or services in accordance with the contract terms and conditions, the Medical School, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which the Medical School may have.
- Q. Taxes: Sales to the Medical School are normally exempt from State sales tax including prepared meals, catering and all serving charges, food, audio/visual services in connection with catering. Any article which the Medical School, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The Offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts, and technical detail to enable the Medical School to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. Unless the offeror clearly indicates in its proposal that the product offered is an equal product, such proposal will be considered to offer the brand name product referenced in the solicitation.
- S. Transportation and Packaging: By submitting their proposals, all offerors certify and warrant that the price offered for FOB destination includes only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped.
