

EVMS Online is celebrating National Distance Learning Week!

November 9 th , 12pm	Teaching Online: COVID & Beyond – Lessons Learned Join the Instructional Design & Technology team to hear the top lessons learned as EVMS made a rapid online course conversion and discuss ways we can take advantage of the changed modality.
November 10 th , 12pm	Collaborate Ultra Training If you're new to the live meeting platform built into Blackboard, thinking of making a change, or facing some challenges and would like to brainstorm solutions, this event is for you.
November 11 th , 12pm	Panopto Video & Lecture Capture Training Ready to bring your lecture recordings into the 21 st century with closed captioning and interactive quiz elements? Look no further! Panopto makes lecture capture and video storage easy.
November 12 th , 12pm	TPACK Model & Medical and Health Professions Education The Technological, Pedagogical and Content Knowledge Model (Mishra & Kohler, 2006) provides professors with a framework to reconsider technology in an online learning environment. Spoiler alert: Not every bell & whistle is worth it! Learn more about TPACK and how you can use it in your course design.
November 13 th , 12pm	VoiceThread Training If you're tired of dead-end text-based discussions, or ready to engage with your students in a dynamic asynchronous format, VoiceThread can help. This tool is perfect for faculty seeking an easy way to accommodate students around the world without sacrificing quality content.

Can't make it to an event? No problem!

Join our "Ask the Experts" sessions. Bring your questions or online learning project ideas. We'd be glad to help!

- November 9th, 2-3pm
