

I. BACKGROUND AND POLICY PURPOSE

In accordance with the federal Drug Free Workplace Act of 1988 and the federal Drug Free Schools and Communities Act of 1989, EVMS must adopt and implement a program designed to prevent the unlawful possession, use, or distribution of alcohol and illegal drugs by its employees and students. Further, substance abuse by students or employees increases risks to the individual, their colleagues, and patients and runs contrary to the mission of an academic health center in the promotion of healthy lifestyles. As such, EVMS has adopted this Drug and Alcohol Abuse Prevention Policy, which applies to all members of the EVMS community and sets forth:

- Prohibited Conduct
- Legal and Disciplinary Sanctions
- Health Risks
- Responsibility for reporting of drug or alcohol abuse
- Responsibility for review of the program

Note: When an employee and/or student is taking medically authorized drugs or other substances, which may alter job performance, the student or employee has a duty to notify his/her supervisor of that information. Failure to do so will be considered a violation of this policy. Students and employees are encouraged to consult with their

A student regains eligibility the day after the period of ineligibility ends, when he or she successfully completes a qualified drug rehabilitation program, when he or she successfully passes two unannounced drug tests conducted by a qualified drug rehabilitation program; or if a conviction is reversed, set aside or removed from the student's record so that fewer than two convictions for sale or three convictions for possession remain on the record.
